How to connect laptop in Dean's Conference Room

To connect your laptop to the display in the Deans Conference room start by locating the connection hub located under a flap on the table

Determine whether your machine connects through VGA or HDMI

(depicted below is the VGA cable on the top and the HDMI cable on the bottom)

Once you have determined whether your machine connects through HDMI or VGA

Plug in the VGA cable into the "PC IN" labeled port or if using HDMI plug in the cable into the "HDMI1" labeled port

Knowledge Base

Next with the Monitor remote turn on the monitor and press the red outlined INPUT button

Lastly, Select your source

If you are using a VGA cable, select "PC IN" as your source

if you are using an HDMI cable select the "INPUT1 HDMI1" as your source
